## MEN WANTED

On Friday, June 7, a number of employees of the Boston Elevated Railway Company left their positions without notice and went on a strike which now exists. These represented almost entirely the newer, younger, more inexperienced men. A large majority of the men, including nearly all of the older, responsible men, remained with the company and have faithfully served in operating its car service, which has been well maintained over its entire system. The company wants at once suitable experienced Motormen and Conductors to fill the places of men who have left the service, and offers attractive, permanent employment not only to these but to other worthy persons who can qualify. For full information write or apply to Superintendent of Employment, 153 Milk Street, Boston, Mass.
